Ms. Neely,

I think this may be a better conversation to have in person than to try to sort it out over email. Jacob's safety and wellbeing are of top importance to me. There are a lot of different variables in this situation that I think we need to unpack together to help bring resolution to these incidents.

Please let me know a time when you are available to meet.

Stephen

Dr. Stillman,

I am very upset about the constant bullying that Jacob is receiving at Lincoln Middle School. It seems like there is a kid in every class that is poking at him and provoking him and just being mean. I have talked to the teachers, but there doesn't seem to be any resolution. I don't know that they are taking my complaints seriously. Being at Lincoln Middle is really important to me and Jacob, and I want to make his experience at the school a positive one. Please help.

Thanks,
Janice Neely
