Look at this. Don't fall for these types of "explanations". The poisonous books ARE on the shelves of your school libraries and in your kid's classroom. They are INDOCTRINATING your kids to an ideology that accepts and promotes critical race theory, homosexuality, transgenderism, and anti-American ideas. Stand up for your kids and FIGHT! Don't let them do this to you and your kids. FIGHT! This is happening at my kid's school - East Fork Elementary School. You better believe I am going to be contacting the principal, Alicia Walden.

Email your principal. Email your teachers. Email your Board member. Request a town hall meeting. Don't give up!! FIGHT!

Good Morning -

There has been a lot of talk about a book called Lawn Boy. This book has never been on the shelves in our library and there is also no review committee at CHS for this book because it's never been on our shelves. There is nothing to review. When we had to buy an entire library of books at one time for the new district curriculum we had a company ship us books for consideration. When books arrived, to speed the process of opening our library, all books were scanned into our inventory and then we tried to examine each book as it was shelved. During this process, Lawn Boy was not shelve by our librarian but we forgot to delete it from our inventory. For those that have reached out and asked us directly about this the past few days, I want to say thank you. CHS is not a perfect school but we are doing our best to create the best learning environment in the county. We will be better with your help.
