Subject: RE: New Hire
Attachments:

Superintendent Glenlee,

Thank you for the update on Richland Elementary. This school has suffered enough with low and declining achievement scores, and it is time for a change. I am glad to hear of the hiring of Christopher Seals as the executive principal. It sounds like he is the expert that can turn things around. With my goals of rezoning the area designated for the meat processing plant and Mr. Seals' expertise in instruction, I think we will be able to restore this community school to the greatness it once enjoyed.

Congrats on the hire. I know you have a tough year ahead with budget talks and contract negotiations. I look forward to your support in the future as we work together on these items.

KJ

Commissioner Jansen,

I wanted to let you know that we have submitted a hiring proposal for Stephen Seals to become the next principal of Richland Elementary. Mr. Seals comes with a track record of success and turnaround work from his previous district, and we look forward to his success at Richland. He is regarded as an instructional expert and will be a great value-add to the school.

Sincerely,

Lacey Glenlee, Ph.D.
Superintendent
Crockett Public Schools
