

Karen Jansen for Commissioner

Yesterday at 4:45pm · 🌐

Look at this. This is the result of FAILED policies by far-left liberals who wish to see our country with open borders. Illegal immigration is destroying our communities and taking good paying jobs from Americans. One of the greatest violators of this immigration hiring fiasco is the meat processing plant that was established in our community just a few years ago. My predecessor brought that immigration magnet to our community, and I vow to change that mistake to make our community and schools great again. Vote for me, and I'll see to it that we restore our community and schools to greatness.
