Mr. Ford,

I am sitting at home at the moment in the dark of the night reading through the weeks' events and reports before heading to bed and am shocked by what the Student Support Office sent to me earlier today. The increase in violence, drugs, and crime at MAHS is astounding. Just today, there was another bag of fentanyl discovered in a student's car. There needs to be swift, stern responses for these incidents. What is the school's current plan of action? Let's meet on Monday morning in my office to discuss. There really does need to be zero tolerance for this type of behavior. It is time to clean this up.
